O NAMA

TERMOMETAL DOO je preduzeće koje se bavi obradom metala sa posebnom orijentacijom ka pojedinačnoj i maloserijskoj proizvodnji metalnih delova, komponenti i pod – sklopova po zahtevu kupca.

Osnovano 1986. kao zanatska radionica za termičku obradu sa dva zaposlena, Termometal doo danas je moderno preduzeće sa preko 200 radnika, sa modernim postrojenjima i najnovijim tehnološkim rešenjima.

Od samog osnivanja Termometal doo svoje poslovanje zasniva na kvalitetnoj izradi, blagovremenoj isporuci i konkurentnim cenama.

Svojom politikom kvaliteta i stalnim angažovanjem svih zaposlenih na unapređivanju svog rada gradimo kvalitet koji traje i koji nam osigurava značajno mesto na tržištu mašinske obrade metala.

PROIZVODNE MOGUĆNOSTI

Proizvodnja se obavlja u prostoru od 4000 m2 u četiri moderne proizvodne hale.

Zahvaljujući savremenim tehnološkim mogućnostima i raznovrsnoj opremi koju posedujemo, u prilici smo da izradimo metalne delove i elemente za potrebe različitih industrijskih grana.

Objedinjavanjem različitih procesa obrade metala nudimo kompletna i efektivna rešenja i za najsloženije zahteve naših kupaca.

Težimo da stalno unapređujemo kvalitet usluga našim kupcima, uvođenjem novih tehnoloških rešenja kao i stalnim unapređivanjem znanja i stručnosti naših zaposlenih.

USLUGA KUPCIMA

Naš profesionalni i iskusni tim stručnjaka uvek je spreman da razmotri i ponudi najefikasnije rešenje od projektovanja do same izrade za svaki zahtev naših kupaca.

Potpuna pažnja poklanja se svakom novom projektu kroz ceo ciklus izrade, od momenta prijema zahteva do konačne isporuke. Tokom svih godina razvoja našeg preduzeća i praćenja savremenih trendova u oblasti mašinske obrade metala ostali smo verni tradicionalnim vrednostima dobrog poslovanja i uspostavljanju dobrih odnosa sa kupcima i dalje negujući dobri stari zanatlijski ponos na sopstveni rad.

ABOUT US

Termometal doo is a metal machining company specialized in one-off and small series production of metal parts, components and sub-assemblies according to customers request.

Founded in 1986. as a small work shop for heat treatment Termometal doo today is a modern company with over 200 employees, with modern facilities and with latest technology.

From its very beginning Termometal doo has based its business on quality craftsmanship delivered on time and at fair price.

With our quality policy and with constant investments in the newest technologies and staff training we are ensuring our competitive position on the metal machining market.

PRODUCTION

Our production is carried out in four production halls covering 4000m² respectively.

Our machining capabilities allow us to manufacture a wide variety of metal parts for different industry sectors.

Obtaining different machining technologies we can provide complete in-house solutions for the most demanding requests.

We strive to maintain consistent quality of our services through continuous upgrade of our equipment and inspection tools, as well as our own technical talent and expertise.

CUSTOMER SERVICE

Our professional and experienced team of engineers is always available to discuss customers' application and to propose the best solution for each customers request.

The complete attention is given to every detail through the life of each project.

We can easily accommodate specific customers' requirements, even to meet the most demanding specifications and production schedules with commitment to zero product defect.

While continuing to grow and remain up to date with technology and equipment Termometal has remained committed to the fundamental principles of personal customer service and pride in workmanship.
